OVERVIEW & MISSION

Junior Achievement was founded nationally in 1919 and locally in 1957 to educate and inspire young people to value free enterprise, business and economics to improve the quality of their lives.

With the mission of insuring that all Hawaii's children have a basic understanding of the free-enterprise system, we have created a working partnership among the business, military and education communities.

During the 2009-2010 school year, Junior Achievement of Hawaii's volunteers served nearly 6,500 students in three island counties – Oahu, Maui and East Hawaii.

We are proud to be part of an international organization that has become the world's largest and best-managed economic education partnership program. Globally, the program reached 6 million students throughout the United States and in 12 member nations.

OUR EDUCATION PROGRAMS

Junior Achievement builds bridges between the classroom and the workplace through the exchange of people and ideas. Our programs for grades K-12 make essential skills relevant to today's students.

Practical concepts – from how money flows through

...OUR EDUCATION PROGRAMS

the community, to personal money management, to how to fill out a job application – are taught by volunteers from businesses and the community-at-large who are trained and placed in participating classrooms during school hours.

Each volunteer has a unique personal style, but they all share the commitment to interact with the students, reinforce the benefits of staying in school, and demonstrate positive attitudes toward work by using their own careers as examples. Teachers welcome the "real world" perspective of the volunteer, who become role models for the students.

Let Their Success Be Your Inspiration!SM
